

===== CALCULATOR PROGRAM OUTPUT =====

1. Initial Values

-----

===== Calculator =====

First Number : 0.0

Second Number : 0.0

Result : 0.0

=====

2. After setNumbers(20, 5)

-----

===== Calculator =====

First Number : 20.0

Second Number : 5.0

Result : 0.0

=====

3. After add()

-----

Addition = 25.0

Result : 25.0

4. After subtract()

-----

Subtraction = 15.0

Result : 15.0

5. After multiply()

-----

Multiplication = 100.0

Result : 100.0

6. After divide()

-----

Division = 4.0

Result : 4.0

7. After setNumbers(10, 0) and divide()

-----

Cannot divide by zero.

Result : 4.0
